

The City of Saint John

Need a mask? Just ask.

Disposable masks available free of charge on all City transit buses

Beginning Saturday, August 22, Saint John Transit will distribute a disposable mask to any rider who asks for one.

This is an extension of the City of Saint John community mask initiative. The program is designed to keep our community safe in following the orders of the Chief Medical Officer of Health. Disposable masks are also available at a number of community organizations and facilities. Visit www.saintjohn.ca for locations.
