

PropertyMark-it

Record now...or replace later!

Property Mark-It is an initiative of the Saint John Police Force to encourage residents to keep a record of their own property. This will assist police in identifying and possibly recovering your valuables in the event that they are lost or stolen.

Record your property on this log sheet, or in an electronic spreadsheet, and keep your records in a safe place.

Include details such as:

- **Serial number**
- **Make**
- **Model**
- **Color**
- **Description**
- **Value**
- **Identifying marks or features**

It is also a good idea to:

- **Take photographs of your valuable property, especially articles that do not have serial numbers (e.g., jewellery, art, heirlooms).**
- **Where possible, add your own recognizable markings to your property.**

Please report any lost or stolen property to the police.

**Call 911 for emergencies or
648-3333 for non-emergency immediate assistance.**
